If you are able to offer a work experience placement to any of our Year 10 or Year 12 students, we manage all administrative arrangements and processes through **Unifrog**.

Employers do not need a Unifrog account to participate. Once a placement is agreed upon, you will receive an automated email via Unifrog containing the required form details, along with a request to upload relevant workplace policies and documentation.

For further guidance and details on how the process works, please visit the Unifrog Placement Guides.
